Tito, just a heads-up..... please see Kelley's note below..... we need EU feedback on the data reports for week 5 (4 homes) no later than Monday if we are going to get a roll-out accomplished next week. Thanks, den.

Dennis -

Wasn't sure that I should bring this up on this morning's call.. but we are still waiting for any feedback on the week 5 data. I am not surprised - since we did not send the data until about 2 pm on Wed. However - we will need some feedback by Monday at the latest to make the roll-out.

As a reminder - only one of the four locations sampled during week 5 had results greater than or equal to the TLs. HW-60 had arsenic at the wellhead at 9.3 ug/L and lithium at the wellhead at 47.7 ug/L. Note that a lower RL (25 ug/L) for lithium was achieved for the 5th week sampling even

Per usual - I sent the reports to HQ-EU, WPD, ATSDR and Dawn. I have not heard back from anyone yet. Did send Dawn a reminder last night (I believe that she is off today) . **Ex. 5 - Deliberative**  
**Ex. 5 - Deliberative** As such - I expect to hear back from her Monday with her findings and tox memos. She has done a great job in conducting all the previous reviews in plenty of time to make the roll-outs. I don't expect comments from ATSDR - more of an FYI.

Sorry for the long-winded explanations - I really just wanted to let you know that we expect feedback from HQs (possibly from WPD).

Thanks - Kelley

Got it Kelley.

I'm on travel this week, but just alerted to EU staff to jump on reviewing these sampling results.

Thanks,

Tito

Tito -

The tox reports and the residential data reports for the four locations sampled during week #5 were just sent to the HQs EU for review.

Sorry for the delay in sending these. Given that there are only four locations - we are still hoping that the review can be completed in time to release the data next week along with the week 4 data which was previously reviewed.

Thank you - Kelley

Attached please find PDFs of the Toxicologist Reports and Draft Residential Data Reports for the 4 locations sampled during Week #5 (3/5/12 - 3/8/12).

While the data has been validated and is considered final, the reports are considered DRAFT until our review is completed.
